

# JERICO BLANDO

BS IT Student | Backend / Web Developer

Bayawan City, Negros Oriental, Philippines | 0924 324 9877

blando.jericho26@gmail.com | github.com/echo10000

## EDUCATION

### Negros Oriental State University - Bayawan-Santa Catalina

#### Campus

Bachelor of Science in Information Technology

**Relevant study:** Web Development, Database Management, Systems Analysis & Design, Object-Oriented Programming,

## TECHNICAL SKILLS

**Languages:** Python, Java, JavaScript, SQL, HTML, CSS

**Frameworks / Libraries:** Django, Bootstrap, Java Swing

**Databases:** PostgreSQL, MySQL

**Tools:** Git, GitHub, VS Code, PyCharm, NetBeans

**Practices:** REST API fundamentals, role-based access control, automated testing, debugging, deployment fundamentals

## SELECTED TECHNICAL PROJECTS

### AI-Powered Faculty Workload & Academic Scheduling

*Django | PostgreSQL | OR-Tools*

#### System

- Capstone project in development for faculty workload management and academic timetable generation.
- Designing role-based workflows for Admin, Authorized Staff, and Faculty users, with unit-scoped access and published schedule viewing.
- Using CP-SAT optimization for workload recommendations and draft timetable generation with conflict detection and human review.

### CBA Asset & Inventory Management System

*Django | PostgreSQL | Bootstrap*

- Built a web-based system covering inventory, assignments, transfers, borrowing, maintenance, disposals, supplies, and audit history.
- Implemented QR-based asset tracking, role-based access, authentication hardening, validation, structured logging, and deployment readiness.
- Maintained an automated test suite with 257 passing tests and prepared deployment, security, backup/restore, and UAT documentation.

### NORSU Attendance Monitoring System

*Java Swing | MySQL | ZXing*

- Developed a desktop QR attendance system with student and administrator workflows, webcam scanning, time-in/time-out records, and event filters.
- Added CSV student import, attendance exports, section/course/year filtering, and printable QR-code sheets using PDF generation.

## DEVELOPMENT EXPERIENCE

- Builds relational database-backed applications from requirements and UI flows through implementation, debugging, testing, and documentation.
- Uses Git/GitHub for version control and reviews AI-assisted code by testing, debugging, and verifying behavior rather than relying on generated output blindly.
- Comfortable learning new frameworks and tools through project-based work and technical documentation.
